10.2018- 02.2019

Chisinau, Moldova

GRADUATE SOFTWARE ENGINEER

Started with a 1.5 months technical training, on Java, .Net, Scrum, DevOps and Business Analysis.
Currently assigned to a project which deals with performing technical analysis on complex software programs for several external clients, inc. Flemish Government and European Commission.
I am also part of the Digital Decisioning pioneers, a working group at Atos that builds real-world decision models for financial institutions. Some examples include mortgage loan approvals and customer risk score models.

WEB DEVELOPMENT BOOTCAMP

Completed a part-time web development bootcamp, **covering fundamentals of Computer Science (data structures, databases) and problem-solving strategies.** Built three projects (one MVP, a feature extension for another project and a group project). Technologies learned and used during the process: **JavaScript, React, Bootstrap, Node.js, MySQL, Git, GitHub, Postman, Heroku**

CONSULTANT - KNOWLEDGE MANAGEMENT AND COLLABORATION

Implementation of the DG JUST Knowledge Management strategy and action plan. Main tasks:
• Research existing **collaborative practices** in the DG, create and manage a network of ambassadors on collaboration and promote the use of knowledge management as an integral part of the working culture.
• Lead the **digital transition** to Microsoft Teams in the unit and hold workshops on how to use the tool.
• Coordinate and implement the roll-out of new webpages for **Commission Intranet**.

BLUE BOOK TRAINEE

External Communication trainee at DG AGRI. Main tasks:
• Plan and initiate a campaign for recruiting new press members for a **digital network platform**. The campaign resulted in a record number of new subscribers since the creation of the network.
• Monitor and review daily general and specialised media platforms - issue daily press reviews and identify ongoing sensitive issues.

COMMUNICATIONS ASSISTANT

Main tasks:
• Work on the strategic maintenance of UNFPA's digital and social media presence.
• Translate between RO and ENG press releases, interviews and other material on request. Conduct media monitoring activities.
• Analyse the data of an extensive study on teenage pregnancy, extract the key messages and advocacy rec-
